This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # SECURITIES FOR THE INSURANCE DEPARTMENT

---

In pursuance of chapter 732 of the Laws of 1868, which provides as follows:

Section 1. No transfer of stocks, bonds or mortgages, or other securities, now held or hereafter received by the Superintendent of the Insurance Department under the provisions of an act authorizing deposits in the said department, shall be deemed valid or of binding force or effect unless the same be countersigned by the Treasurer of the State, or, in his absence from his office or inability to perform the duties of his office, by his deputy, or by the accountant and transfer officer, as authorized by act, chapter 466, Laws of 1896.

It shall be the duty of the Treasurer aforesaid to keep in his office, or in the office of the Superintendent of the Insurance Department, a book in which shall be entered the name of the company from whose account such transfer of securities is made by the Superintendent, and the name of the party to whom such transfer is made, unless such transfer shall be made in blank; and the par value of any stock so transferred shall be entered therein and the amount for which every mortgage transferred is held by the Superintendent, and the name of the party to whom assigned shall also be therein entered; and it shall be the duty of the Treasurer, immediately upon countersigning and entering the same, to advise, by mail, the company from whose accounts such transfer is made of the kind of security and the amount of the same thus transferred.

§ 2. The Treasurer shall present in his annual report to the Legislature the total amount of such transfers or assignments countersigned by him.
